

SITE AND PROJECT MANAGEMENT		
Centralized project repository	✓	✓
Dynamic project organization	✓	✓
Version control of Design files	✓	✓
Built-in search engine to locate information quickly	✓	✓
Customizable layout and templates for sites and projects	✓	✓
File attachment organization and categorization	✓	✓
Remote information sharing for External users	configure at setup	
Possibility to link information to Google map	✓	✓
Customizable project fields	✓	
Import/Export project fields in Excel	✓	
INTEGRATION WITH IBWAVE DESIGN AND IBWAVE MOBILE		
Automatic population of project data from Design files	✓	✓
Upload and Download any attachment type	✓	✓
Define upload validation criteria for Design files to reduce errors	✓	✓
iBwave DRIVE		
Built-in file synchronization and sharing functionality across iBwave Unity and Design	✓	✓
Storage and sharing folder structure controlled based on users roles	✓	✓
Open files from/Save files to and Edit files from iBwave Unity and Design	✓	✓
CENTRALIZED DATABASE OF COMPONENTS		
Track the database version for each project design	✓	✓
Storage and version control of the shared Database of components	✓	✓
Define a list of approved and equivalent components and sub-components	✓	✓
DASHBOARDS		
Customizable dashboards	✓	
Task summary dashboard	✓	✓
Project summary dashboard	✓	✓
REPORTS		
Customizable reports	✓	
Equipment list for each and all projects together report	✓	✓
Cost details for each and all projects together report	✓	✓
Cross reference report	✓	
Cable routing for each and all projects together report	✓	✓
Project design summary for each and all projects together report	✓	✓
Project per technology report	✓	
Project compliancy for each and all projects together report	✓	✓
Project assignment report	✓	
Region and contractor performance report	✓	
Project results and detailed status report	✓	
Schedule reports	✓	
Send reports by email automatically	✓	
Active projects and tasks reports	✓	
WORKFLOW MANAGEMENT (OPTIONAL)		
Customizable workflow templates	✓	One best practice template, no customization
Track and assign resources, monitor timelines and costs	✓	✓
Gantt chart view	✓	✓
Define and manage projects and detailed tasks description with check list items	✓	✓
Attach files to each workflow task	✓	
Automatic Email notifications based on project criteria	✓	✓
APPLICATION PROGRAMMING INTERFACE (API)		
API documentation and toolkit available	✓	
SECURITY AND ACCESS PRIVILEGES CONTROL		
Define and manage users and roles and access privileges	✓	✓
Built-in database encryption (256 bits)	✓	
User management (project compliancy, project states, project types, regions, DAS types, feed types, mobile devices)	✓	✓
Define and manage site, project and folder access privileges	✓	✓
Define and manage Email notification rules based on user profile	✓	✓
Access control on workflow templates, tasks and projects	✓	✓
System monitoring (project history, user activity and history, queue health, status and history, licensing summary, error reports, remote shared errors)	✓	✓

DEPLOYMENT OPTIONS	iBwave UNITY ENTERPRISE	iBwave UNITY TEAM
On-Premise Deployment	✓	
Cloud Deployment	✓	✓
Storage capacity	Unlimited	30GB for the 3 users (additional storage)
Number of seats	10 users for standard package	3 users for standard package
