

**Better** Collaboration.  
**Clearer** Design Reviews.  
**Faster** Project Delivery.

Take Control with **Viewer+**

**From design to delivery, work smarter and faster with Viewer+.**

Empower every team member with greater access, visibility, and control to review, validate, and collaborate on iBwave Design files.

**No more bottlenecks. No more static design files. No more fragmented communication. Just faster execution.**

## Review and Interact with Designs with Clarity & Control

Access the details you need, when you need them.

### ✓ Control Your View & See What Matters

Lock/unlock, show/hide and shift layers, toggle legends, and move parts and labels for clearer, focused design analysis.

### ✓ Review Key Component & Material Details

Quickly access properties of radios, cables, walls, and other parts and materials.

### ✓ Ensure Cross-Floor Consistency

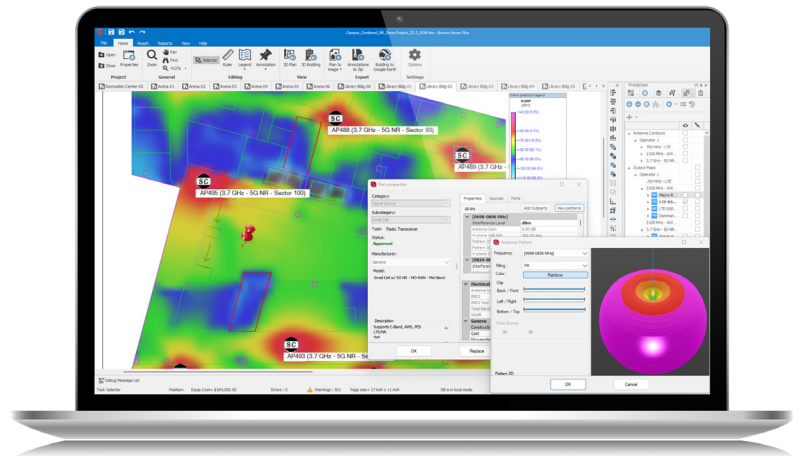

Review floor siblings and verify connector links for seamless installation.

### ✓ Validate Setup with Confidence

Easily verify building, system, and floor plan details.

### ✓ Understand Network Performance at a Glance

Visualize survey and prediction data, enhanced with 3D views.

## Eliminate Bottlenecks & Streamline Collaboration

Stay aligned across project teams.

### ✓ Leave Feedback with Ease

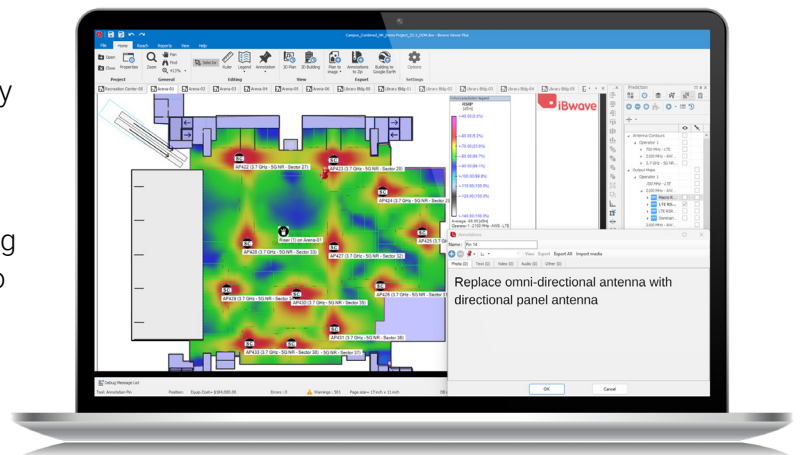

Add comments or annotate design changes directly on floor plans and export them in a report for seamless communication.

### ✓ Unlock More Reports for Better Insight

Access comprehensive, shareable reports, including Output Maps, Cable Routing, Antenna, and more, to ensure teams are aligned.

### ✓ Execute Seamlessly Across Teams

From design reviewers to project leads and installers—enable everyone with the access and details they need to complete their job independently and move projects forward faster.

## Efficiency and Collaboration Redefined.

Deliver seamless execution from review to deployment—with speed, clarity, and control.

## Which Version is Right for You?
